

Preface

The East Carolina University *Fact Book* is an annual publication that provides a ready source of information to answer frequently asked questions about the University and its operations. It contains a broad range of information about the past and present. The *Fact Book's* primary purposes are to promote organizational understanding and to inform decision making. Some of the information presented in this annual edition is taken from administrative reports produced by various university offices. Planning and Institutional Research thanks those offices for their valuable assistance.

A large part of the information presented in this edition of the *Fact Book* relates to student enrollment. Since East Carolina University, in an effort to provide wider educational opportunities in the region, offers a number of courses off-campus or via Internet-based instruction, enrollment data, for the first time, includes those distance education students in the enrollment tables presented unless it is noted otherwise. The inclusion of distance education enrollment follows the example set by the University of North Carolina's Office of the President, which included off-campus enrollment in the total enrollment count for each of the universities in the system for the first time in the Fall 2000 semester. So that we may reflect the way information is presented to the Board of Governors as well as to many other external constituencies, the East Carolina University *Fact Book* will continue to include off-campus enrollment in its analyses. However, where enrollment history is presented, the years prior to 2001 report only on-campus enrollment unless otherwise noted. In instances where only current year data is presented, the data user is cautioned about drawing conclusions based on comparisons to the corresponding chart in previous years since the inclusion in 2001 data of distance education enrollment affects the validity of any such conclusions. Historical enrollment figures which do include distance education enrollment may be found on page 84.

PIR intends to continue improving the *Fact Book* every year, and welcomes your comments and suggestions for improvement.

- .. ECU's unrestricted current fund revenue in fiscal year 2000-2001 totaled \$390.5 million (p. 145), and unrestricted expenditures totaled \$374.4 million (p. 146).
- .. Research grants and contracts have increased 86.3% over the past five years (p. 147).

History Of East Carolina University

Chartered by the North Carolina General Assembly on March 8, 1907, East Carolina University has moved in a rapid but orderly transition from its beginnings as a two-year normal school to a Doctoral/Research-Intensive level university whose outreach now transcends its regional origins.

On October 5, 1909, East Carolina Teachers Training School began its first regular session; during that year 174 men and women students were enrolled. The first class to graduate from the two-year normal curriculum received its diplomas on June 6, 1911.

The institution was authorized by the General Assembly in 1920 to institute a four-year teacher education curriculum and to confer the baccalaureate degree upon its graduates. The Board of Trustees proposed in 1921 that the name be changed.

East Carolina Teachers College was authorized in 1929 to initiate graduate programs, and it conferred the first Master of Arts degree in 1933. In 1941 the college was charged to plan for a liberal arts program.

In 1951, to reflect the institution's expanding academic commitments, the name was changed to East Carolina College. As the fastest growing educational institution in North Carolina, by 1960 it had become the state's third largest institution of higher learning.

During the expansion of the sixties, East Carolina was reorganized to reflect the structure of a comprehensive university. In addition to the College of Arts and Sciences, the Graduate School, and the General College, seven professional schools were established. In 1967 the General Assembly authorized university status. There-

after, East Carolina University continued its academic advancement and extended its services to address regional and national challenges.

The General Assembly restructured public higher education in North Carolina in 1971, making the University a constituent member of the University of North Carolina. The charter class of the four-year medical school enrolled in 1977. In 1979 the University was authorized to develop five Ph.D. programs in basic sciences related to medicine. East Carolina University awarded its first Ph.D. degree in 1983.

The University presently consists of sixteen departments within the College of Arts and Sciences, twelve professional schools, the General College, the Graduate School, and the Division of Continuing Studies.

East Carolina University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number 404-679-4501) to award bachelor's, master's, and doctoral degrees.

Prepared by Mary Jo Bratton, Professor Emeritus of History

Note: During 1998, East Carolina University was reclassified as a Doctoral/Research-Intensive institution. ECU offers doctoral degrees in Educational Leadership, Bioenergetics, Communication Sciences and Disorders, Coastal Resources Management, Biomedical Physics, Nursing, Pharmacology, Physiology, Microbiology and Immunology, Biological Sciences, Anatomy and Cell Biology, Biochemistry, and Medicine.

Highlights

In the Fall 2001 semester:

- .. Total headcount enrollment was 19,412, including both on-campus and distance education students, an increase of 3.6% over fall 2000's enrollment of 18,750. On-campus enrollment totaled 18,174, a 1.8% increase over fall 2000 ([p. 35](#)).
- .. 84% of first-time freshmen were residents of North Carolina ([p. 40](#)).
- .. The majority of new undergraduate transfers from other NC senior institutions were from North Carolina State University, University of North Carolina at Wilmington, Appalachian State University, University of North Carolina at Chapel Hill, and the University of North Carolina at Greensboro. Approximately 22% of undergraduate transfers came from other states. 52% of transferring undergraduates were from NC community colleges ([p. 44](#)).
- .. 92% of ECU undergraduate students attended full-time; 37% of graduate students (excluding Medical students) attended full time ([p. 46](#)).
- .. 86% of the total enrollment were North Carolina residents ([p. 50](#)).
- .. Ethnic minorities were approximately 19% of undergraduates, 16% of graduate students, and 35% of medical students ([p. 53](#)).
- .. 12% of undergraduates were 25 or older ([p. 58](#)).
- .. On-campus students enrolled in courses totaling 233,925 semester credit hours ([p. 89](#)), an increase of 2.9% over the fall 2000 semester.

Note: Five and six year graduate totals are cumulative; the size of the cohort changes to reflect the number of the original cohort completing 30 and 60 hours, respectively.

Note: The original cohort total includes students who subsequently either "stopped out," dropped out, or transferred to other institutions, but does not include those who are now deceased or permanently disabled, who entered the U.S. military service or the U.S. Foreign Service, the foreign aid service of the U.S. government, or who joined official church missions.

Note: Credit hours earned by members of the cohort do not include credit by exam (including AP and CLEP credits), transferred credits, or other credits earned at other institutions.

Note: Tenured and tenure-track faculty who are partially on leave-without-pay to work on other projects or grants are included.

Note: "Total faculty" shown in this table differs from other PIR tables due to the inclusion of temporary faculty and faculty in administrative positions. Faculty are included here based on the following criteria: (a) currently employed in an EPA position; (b) coded as faculty or administrator with rank of Professor, Associate Professor, Assistant Professor, Instructor, or Lecturer; and (c) rank modifier data base value of "None," "Distinguished," "Clinical," "Research," "Librarian," "Visiting," "Visiting Distinguished," or "Visiting Librarian". "Not on Tenure Track" and includes faculty who were tenured or on tenure track but are now in retired status, still teaching, or in phased retirement status.

Note: Faculty headcount and FTE do not include ROTC faculty, and are based on home department assignments as recorded in the Personnel Data File.

Note: In 2001, the "part-time, not-on-tenure track" faculty total includes 1 retired faculty (0.05 FTE) and 23 faculty (11.25 FTE) who are in "phased retirement" status. The "Admin." line includes one faculty member (0.05 FTE) who is in 'phased retirement status."

Note: Tenured and tenure-track faculty who are partially on leave-without-pay to work on other projects or grants are included.

Note: "Total faculty" shown in this table differs from other PIR tables due to the inclusion of temporary faculty and faculty in administrative positions. Faculty are included here based on the following criteria: (a) currently employed in an EPA position; (b) coded as faculty or administrator with rank of Professor, Associate Professor, Assistant Professor, Instructor, or Lecturer; and (c) rank modifier data base value of "None," "Distinguished," "Clinical," "Research," "Librarian," "Visiting," "Visiting Distinguished," or "Visiting Librarian". "Not on Tenure Track" and includes faculty who were tenured or on tenure track but are now in retired status, still teaching, or in phased retirement status.

Note: Faculty headcount and FTE do not include ROTC faculty. Headcount is based on home department assignment; FTE represents teaching department assignments as recorded in the Personnel Data File.

Note: In 2001, the "part-time, not-on-tenure track" faculty total includes 1 retired faculty (0.05 FTE) and 23 faculty (11.25 FTE) who are in "phased retirement" status. The "Admin." line includes one faculty member (0.05 FTE) who is in "phased retirement" status.

Note: "The current funds group includes those economic resources...which are expendable for any purpose in performing the primary objectives of the institution,... and which have not been designated by the governing board for other purposes. Resources restricted by donors or other outside agencies for specific current operating purposes are accounted for as restricted current funds." (AICPA 1973 Audit Guide p. 13). Unrestricted funds in the auxiliary enterprise category are derived from fee-for-service activities which exist to furnish goods or services to students, faculty, staff, or incidentally to the general public, or which are related to the educational mission of the institution (NACUBO's Financial Accounting and Reporting Manual for Higher Education).
